

Appl. No. 10/799,913
Amdt. Dated January 27, 2006
Reply to Office Action of November 30, 2005

Docket No. CM06187H
Customer No. 22917

REMARKS/ARGUMENTS

Applicants thank Examiner Ryman for the time taken to discuss this application in a telephone interview on January 26, 2006. The interview was helpful in moving the case forward. As discussed in the interview, Applicants have amended the rejected claims (namely Claims 1 and 24) to include a limitation to a field having a "fixed location in the burst." As mentioned in the interview, such a limitation is not found in the prior art (either alone or in combination). As such, the amended claims define patentable subject matter and should be allowed.

Further, Claims 6-8 and Claims 11-12 have been cancelled (instead of withdrawn) in order to move the application toward allowance. In addition, all informal objections have been addressed.

If there any other issues that need to be addressed, the examiner is asked to telephone Applicants' undersigned attorney.

Respectfully submitted,

SEND CORRESPONDENCE TO:
